

## **County Superintendents Select Regional Arts Leads**

CCSESA is moving forward in the next phase of the Hewlett Foundation funded Arts Initiative, which will include eleven regional arts education leads, selected by county superintendents, to engage all county offices in collaborative work within the region. This collaboration will focus on assisting districts and schools with planning and implementing effective and equitable, standards-aligned arts as part of the core curriculum. Selected leads will also serve as members of the CISC Visual and Performing Arts subcommittee to ensure strong statewide coordination. Regional leads were announced at the June quarterly meeting in San Diego.
